

HSM ProfiPack C400 Packaging machine

From waste to packaging material

Used cardboard is made into high-quality packaging material.

Specially hardened solid steel cutting rollers

Specially hardened HSM cutting rollers ensure absolutely precise cutting.

With this packaging machine, you can process cardboard into a padding mat or padded filling material in one working step. As a compact tabletop device, it can be used as a mobile device with total flexibility.

- High quality materials and "Made in Germany" quality for safety and durability.
- Cutting rollers made of hardened solid steel.
- Powerful drive allows continuous operation.
- Adjustable cushioning volume of the packaging material.
- Infinitely adjustable working width with scale for cushioning material made to measure.
- Intuitive operation with LED indicators on robust keypad.
- The integrated turbo-function resolves blockages.
- Recessed handle for easy lifting of the device.
- Non-slip stand of the packaging machine.
