

BRANOfIame

Flame retardant Paper

Product characteristics

BRANOfIame is a coated kraft paper with flame retardant properties. It is in accordance with the state material test office regulations regarding paper's extremely low flammability while in use in rooms conforming to supervised construction safety requirements.

It is possible to print, paint, fold, staple, cut, punch and glue. Surplus paint or fluid such as in paintspray cabins can be absorbed. **BRANOfIame** is electrically conductive and prevents static charge.

Possibilities of printing

	CF9	CF11
Printing by BRANOpac	up to 3 colours using flexoprinting up to 700 kg	
Printing by customer	all common printing systems	

Application

BRANOfIame is used for:

- Lining spray and welding cabins
- Covering draining zones
- Taking down dividing walls
- Theatre sceneries and decorations
- Covering and wrapping flammable or easily combustible products
- For any application where fire resistance is a must

Advantages

- Reduction of burning and explosion hazards
- Environmentally friendly material
- Easy to dispose
- Non-hazardous material
- No more removing of lacquer residuals
- Walls, draining sheets and draining zones remain clean and dry
- BRANOpac is certified according to ISO 9001 and ISO 14001
- Development of customized solutions possible
